### PROFESSIONAL SUMMARY

I'm a Software Engineer with a strong foundation in web development using HTML, CSS, JavaScript, and the Bootstrap framework. I hold a Bachelor's degree in [Computer Science & Engineering] from Jhulelal Institute Of Technology (Rashtrasant Tukadoji Maharaj Nagpur University). I'm passionate about creating user-friendly and innovative web applications, and I thrive in collaborative environments. Resourceful professional with successful track record in developing innovative web designs and features. Possesses solid knowledge of HTML, CSS, JavaScript and Bootstrap with ability to quickly learn new technologies. Demonstrated success in identifying and resolving complex code issues.

### WORK HISTORY

**Arcane Path Tech Solution – Front-End Developer Intern**  
**Nagpur, India** **01/2024 – 05/2024**

- Streamlined codebase by refactoring HTML, CSS, and JavaScript for improved performance and maintainability.
- Created custom animations and transitions for engaging user interfaces that increased customer satisfaction rates.
- Developed reusable components using modern front-end frameworks such as React or Angular for efficient development processes.
- Collaborated with designers to ensure seamless implementation of UI/UX designs into functional web pages.

**Ankhub Technology Services – Web Developer Intern**  
**Nagpur, India** **03/2023 – 05/2023**

- Completed full redesigns of existing websites to improve navigation, enhance visuals and strengthen search engine rankings
- Crafted SEO strategy and intuitive interface for site to achieve prominent rankings across top browser platforms
- Developed user interfaces with modern JavaScript frameworks, HTML5, and CSS3.
- Contributed to projects within Scrum project management environments. Wrote custom HTML and JavaScript for existing websites.

### PROJECT

- DigiMed SMART HEALTH CARE SOLUTION, DigiMed is a computer software that facilitates remote medical consultations and assistance to patients. DigiMed is a Smart healthcare center which is a fulltime activity zone. Hundreds of patients get treated for a variety of problems. It becomes very convenient for people living far-off to get an expert and quick medical service. Software will learn with every use that means it will keep the data of previous patients and will use that for future predictions and consultation. The patients will enter their problems and symptoms and our software will predict the disease and also provide necessary treatments If our software is unable to predict the disease it will provide the contact details of the concerned doctor for proper diagnosis.
